Privacy Policy for Cafe Analog's Coffee Card Apps

Last updated: 30.05.2022

Cafe Analog is the owner of this app. Personal data is collected and stored through the use of this app. The personal data is limited to your name, email and ITU programme.

- Your name and email are collected to identify and contact the users of the app. This is necessary to confirm that the user created an account and allows the users to change their password.
- Your ITU programme is collected for statistical purposes.
- Your name and ITU programme may be shown on public leaderboards at www.cafeanalog.dk and in the app to show statistics about coffee drinking at ITU. You can remove your name from the leaderboard in the settings of the app.
- Your password is encrypted with a one-way hashing algorithm and a salt.

The personal data concerning you can be found and edited in the settings of the app.

All of the personal data mentioned above will continue to be stored with us if you uninstall the app. If you wish to remove the data concerning you from our server, you can contact support@analogio.dk and your account and all your personal data will be deleted.

In order to make maintenance as efficient as possible, we use a third-party service called Google Firebase. Firebase collects data about your device to identify what caused the crash. No personal data will be shared with Firebase or any other third parties.
